ABOUT KHAOULA

Committed to People and Possibilities

Originally from Tunis, Khaoula Mekni moved to Dubai in 2011 to pursue new opportunities and a more dynamic future. With over decades of experience living in the city, she has developed a deep understanding of the city's ever-evolving property landscape and the diverse needs of clients. Initially, she started working in the retail industry as a sales and marketing advisor for plenty of luxury brands.

However, Khaoula realised that she could start utilising her communication skills to attract clients in the real estate industry as she's fluent in Arabic, English, and French. Known for her approachable and client-first mindset, she brings professionalism with a pinch of passion in every transaction. She primarily focuses on selling and renting properties in Dubai Land, DAMAC Hills, and JVC, as well as Off-plan properties from premium developers in Dubai.

Khaoula is an expressive extrovert, outspoken, and takes pride in her work. Her multicultural background, combined with her ability to speak different languages, allows her to connect with clients effortlessly from any corner of the world. She always goes out of her way to satisfy her clients and provide the best real estate services for them, as she cares deeply about her clients. Khaoula is great to work with, whether you're a first-time buyer, a seasoned investor, or a client relocating to Dubai.
